Complete Roster: A "W" following a member's number indicates "Winter" Forty-Sixer status. Those members who have completed their winter climbs will have their number highlighted in blue. A "V" following a members number indicates that they have given at least 146 hours of volunteer service to the organization. Those member numbers are highlighted in gold. In some cases members know they started or finished during a particular year, but are uncertain which month and day. For automation purposes, those members have arbitrarily been given a date of 01-01-yyyy, where yyyy represents the year of first or last ascent.
